- Flask
- Rest Api
- Git
- PostgreSQL
- Web Socket
- Node.js
- Linux
- JAVA & Spring (Learning)

Languages

Khmer 
English 

Personality

Honest, Kind, Active, Curious

PROFILE SUMMARY

I am a web developer with well-developed coding skills and a strong ability to work under pressure while handling complex tasks. I'm highly adaptable, able to stay focused for long periods, and always ready to support my teammates. With solid research and critical-thinking skills, I enjoy solving problems and finding efficient solutions. My experience includes building responsive static and dynamic websites, designing clean user interfaces, and developing REST API endpoints. I have hands-on knowledge of both frontend and backend development, with practical experience using Vue.js, Nuxt, Tailwind CSS, Flask, Express.js, and Python. I'm passionate about continuous learning, exploring new technologies, and applying them to create scalable, maintainable systems. Currently, I am seeking a web development role where I can contribute my skills, grow professionally, and build impactful digital experiences.

EDUCATION

2015 – 2018 Graduate from high school at Sonthormok
2018 – 2022 Graduated with a Bachelor's Degree in Computer Science from Norton University

WORK EXPERIENCE

2022 – 2022 Web Developer Internship at COTAFER for 3 months
2022 – NOW Web Developer at COTAFER for about 3 years +

PROJECTS

COTAFER (2022 until now)

- Ebook & Social Media Platform called GONOKA – Developed on multiple projects such as Consumer, Admin, Author Management using Flask, Vuejs, Tailwinds, PostgreSQL and so on.
